

The Green Company

Established in 2007 and headquartered in Guangzhou, China, CNLC specializes in the development and production of outdoor advertising displays, boasting over 19 years of industry experience. We are a dedicated manufacturer focusing on outdoor high-brightness advertising LCD digital signage, as well as LED screen billboard and Mupi light box solutions. We use precise molded aluminum material for the enclosure of our product, they are robust, exclusive and elegant. With IP 56 rating, the screens are protected well and work for a long life span.

Professional Team

Our product range includes outdoor high-brightness LCD digital signage, high-brightness LCD window displays, indoor high-brightness advertising displays, LED digital billboard, available in various sizes of LCD modules. The aluminum structure ensures waterproof, dust-proof, and corrosion-resistant properties. Both the front and back of the LCD & LED screens are equipped with air cooling systems depends on the using scenarios, complemented by dust-proof nets to ensure a long service life.

In addition to our commitment to quality and innovation, we are proud to announce that CNLC products have passed UL, ISO, CE, and FCC certifications, ensuring compliance with internationally recognized quality management standards as well as European and American safety and environmental standards.
